2. Reopening Options

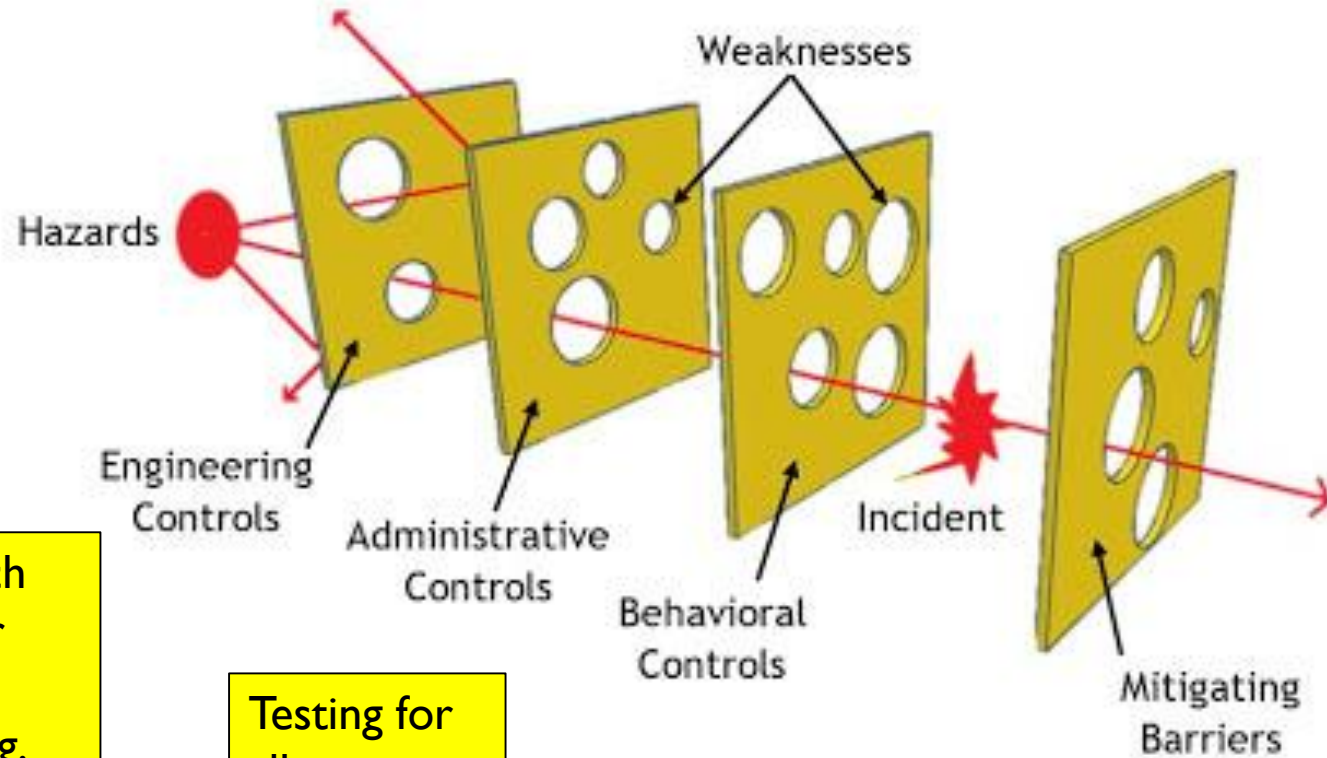

We all know
what to do by
now.

The issue is doing
it all the time.

The Swiss Cheese Model of Risk Management

Not much space for social distancing.

Testing for all participants.

Required face coverings.

Risk Mitigation Options, in Order of Effectiveness

- 
1. Require proof of vaccination
 2. Require proof of a recent Negative PCR test
 3. Require face coverings except when eating or drinking
 4. Hold events outdoors
 5. Open windows and doors to increase air circulation within indoor venues
 6. Remove seats to increase social distance between unrelated people
 7. Have everyone submit to a rapid test upon arrival
 8. Check everyone's temperature at points of ingress
 9. Have everyone answer health survey questions
 10. Pretend the pandemic is over.

No rule is self-enforcing. Polite, but firm enforcement is always necessary.
