

**Devoted teachers with
a love of mathematics.**

With faith that mathematics
can serve as a universal
language to form the basis
of trust among all nations,
races and religions.

And in the belief that true
achievement is measured
more by progress than by
success.

The Watsons contributed to
the vitality of their community.

Since 1972, Rochester Area
Community Foundation has
engaged passionate philanthropists
in improving our region,
awarding more than \$293 million
in grants across our eight-county
service area to meet both current
and future needs.

More than 1,000 funds and
endowments are administered by
the Community Foundation.

These funds, created by
individuals, families, organizations
and businesses, benefit the greater
Rochester region in a wide variety
of impact areas that include the
arts, education, social services,
civic engagement, and
a host of other purposes.

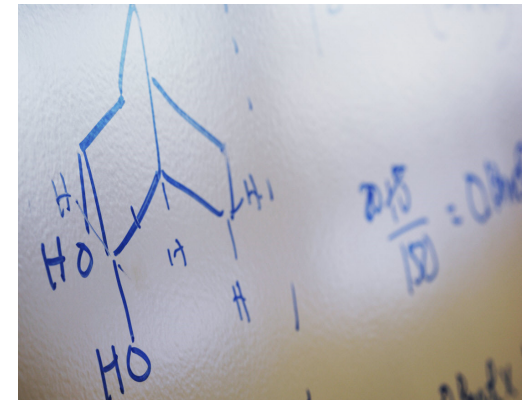

Working with the Community
Foundation, local philanthropists
can become catalysts for
community change and
experience the joy of giving.

Achievement

Commitment

Education

Trust

The Watsons created a stable, loving family.

Please accept this grant in memory of Frederick C. and Helen W. Watson.

The Frederick C. and Helen W. Watson Memorial Scholarship is one of several scholarship awards given in memory of this couple.

Mr. Watson taught at East High School for 35 years and was head of the mathematics department for 11 years.

Mrs. Watson was a life-long teacher at East High School who taught math for 33 years.

The Frederick C. and Helen W. Watson Memorial Scholarship is an award to a student who has shown significant improvement in mathematics interest and skill during his or her years at East High School.

The Frederick C. Watson Scholarship recognizes the achievement of a student from East High School who has done well in science and math and who will continue to pursue courses in the fields of math, science, or engineering while in college.

The Helen W. Watson Scholarship

recognizes a student from East High School who has done well in math and who will continue to pursue courses in the field of math while in college.
