

THE COMMUNITY FOUNDATION

Barbara Berger Clark

Barbara Berger Clark devoted her life to caring for others as a public health nurse, a compassionate volunteer, and a lifelong advocate for the community's most underserved, vulnerable, and needing a helping hand.

This scholarship was created in her memory to support the next generation of nurses who share her commitment to public health and to serving their communities.

The scholarship welcomes all nursing students, including those who discover their passion later in life or through a second career. It especially honors students who share Barbara's dedication to public health nursing, with a focus on prevention, caring for whole communities, and advancing health equity.

Through this award, Barbara's legacy lives on in those who choose to serve beyond the bedside bringing care, compassion, and opportunity to individuals and communities who need it most.

The Barbara Berger Clark Nursing Scholarship Fund is administered by the Rochester Area Community Foundation. Information and applications can be found on the Community Foundation website, www.racf.org/scholarships.
